It is believed here there will be great excitement in Spain so soon as the United States congress meets. Letters have been found upon captured insurgents advising them to keep up the struggle for three months longer, pointing out that the first act of the Sagasta government would be the removal of General Weyler and adding that war would be made on the Spanish minister at Washington, Senor Depuy de Lome. It is charged that Senor Depuy de Lome and Dr. Congosta are to blame for the spread in the United States of the sentiment in favor of autonomy, and it is even alleged that they have induced American newspapers to advocate this

J.M.CLAYTON MURDER

Memory of the Famous Crime Revived by a Letter.

Georgia Man Writes Governor Jones That He Can Locate the Assassin and Produce Proof of His Guilt-The Crime Caused a Sensation-The Ketcham Sensation and Other Crimes.

LITTLE ROCK, Nov. 18 .- The momory of the most famous crime ever committed in Arkansas-the assassination of the result of the election in this of Hon. John M. Clayton-has been revived by the receipt of a letter by Governor Jones, written from Pitts, Ga., by a person signing the name Luther Akins. The writer of the letter recalls the crime, inquires about rewards and states that he can locate the murderer

The murder of John M. Clayton will be remembered by politicians and public men all over the country, Clayton was a brother of Hon. Powell Clayton, the present United States minister to Mexico. He was the Republican candidate for congress in 1889, his opponent being Hon. Clifton R. Breckinridge, late ambassador to Russia. The canvas was a spirited one and the contest was bitter. Breckinridge was declared elected and Clayton filed a contest.

While this contest was in progress Mr. Clayton went to Plummerville to look after his interests. While in his room one night just before preparing to retire an assassin crept up in the dark and fired a load of buckshot through the window of his room inflicting wounds from which he died. The murder created a sensation all over the United States. Detectives were employed and worked diligently on the case and many persons were suspected of the crime but the murderer went unpunished. Several times since then the memory of the crime has been revived by the discovery of some new clue but the assassination had almost been forgotten when the letter from Akins once more brought the terrible affair into public notice. The legislature once offered a reward of \$5,000 for conviction of the murderer and the reward is probably yet in force.

WHO WAS THE BRIDEGROOM? Police Think It Was Keller, and Not Ketcham.

CHICAGO, Nov. 18 .- Additional mystery is thrown about the case of John B. Ketcham with every development brought forth by the police in their efforts to ascertain the facts surrounding his death at the home of Mrs. Minnie Wallace Walkup, or Ketcham. Joseph Keller, the woman's butler, disappeared Tuesday evening after having been held for some time by the police undergoing of that name of New York, has been de- a severe cross-examination regarding the circumstances of the alleged marmated at \$40,000 and no assets. It is riage of Mrs. Wallace to Ketcham last

September. The police declare that he was questioned and allowed to depart, while as a matter of fact Keller was locked up on a suspicion aroused by his own story. The police are inclined to believe the rumors which started in Milwaukee that Keller and not Ketcham stood before the minister as bridgroom with his face concealed under the folds of a scarf. He is now held by the police who are able to produce him at any

time he may be needed. The alleged wife of Ketcham is ill in bed with nervous prostration, the ordeal which she has undergone since the death of Ketcham having been too much for her strength.

Criminal proceeding are threatened against Mrs. Minnie Wallace and several other persons whose names have not been divulged but who, John Ketcham's relatives will charge, were associated in what they characterize as a

John Campbell In Hock For Forging Bills of Lading.

MOUNT CARMEL, Ills., Nov. 18.-John Campbell is in custody in this city on a charge of attempting to defraud. His method was unique. In some manner Campbell obtained possession of blank bills of lading, which he forged, representing that he had shipped two cars of wheat. These, together with forged letters of recommendation, he forwarded to Ballard & Ballard of Louisville, with a request that the money be sent at once. The firm immediately forwarded \$650 to him, which he called for under an assumed name, but, failing to identify himself, did not secure the cash. He was recognized and his arrest followed. Campbell is now under indictment in Knox county, Ind., for beating the Adams Express company out of \$400 by impersonating another man.

The murderer who, at dead of night, creeps, stealthily out to bury the dead and with horror and dread. There is a murderer human race who go down to untimely deaths. This dread monster is called consumption. The approach of consumption is slow and insidious. First there is a slight disorder of the digestion. The appetite is poor and the nourishing properties of the food are not properly assimilated. The blood becomes thin and impure. The body begins to starve. Old tissues of the body are not properly replaced by new. The lung tissues are not properly nourished and are inert and half dead. In this condition they offer a good soil for the germs of consumption which invade and attack them.

This operation is promptly reversed by Dr. Pierce's Golden Medical Discovery. It invigorates the digestion and appetite and makes assimilation perfect. It builds up and purifies the blood. It makes new and healthy tissue to replace the old, inert matter which it causes to be carried off. drives out all disease-germs. There was a ers in the church will be represented on time when even the old fashioned single barreled pistol could not be manufactured to sell for less than \$1, or even more. That time has gone, and the single barreled pistol is a thing of the past. In its place came the revolver, which is now made in all sizes, from a vest pocket revolver to that which is carried in a holster. The prices have kept on going down as the revolvers have improved in manufacture, so that now a perfect working and reliable revolver can be bought at retail as low as \$1,

Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grow worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine." Dr.

Thankgiving Turkev.

The Philadelphia Record gives the ollowing concerning the preparation o the Thanksg ving bird:

There is a chef in one of the large hotels who is famous for his roast turkey. Turkey under his hands comes out not only a beautiful brown, but of a delicious flavor quite different from any o her turkey that ever was seen. The turkey meat is positively rich, and even the white meat that is generally dry has a moist, spicy taste.

This is his receipe for roast turkey, which he kindly consented to give the household department:

Clean the turkey with as little handing as possible and rinse with water in which a little baking soda has been assolved. Now break up about half a pint of bread crumbs, and into the crumbs chop two links of pork sausag e Stuff the turkey with this mixture and board Wednesday. just before putting it into the oven bind silt pork on the breast of the turkey. Remove the pork just before the turkey s taken from the oven.

When the meat is caryed its flavor will be found very superior. This is ticularly to be recommended for the Thanksgiving turkey, which; with so many other dainties rivaing it, must be very appetizing to be enjoyed.

GERMANY IN POSSESSION.

Compell the Chinese to Evacuate Forts at Kiao-Chau. London, Nov. 18.—A special dispatch from Shanghai says that commander of

the German cruiser division, Admiral Von Diederich, landed troops at Kiao-Chau on Monday morning, Nov. 15. The three forts were held by 1,500 Chinese and their guns commanded the fleet. Admiral Von Diederich placed his four cruisers immediately opposite, J. M. Dixon is in the city from Xenia ready to fire, and sent an ultimatum ordering the evacuation of the forts within three hours. Six hundred Ger-J. F. Anderson, of St. Louis, is in the man troops and six guns were then landed and began to march forward. The Chinese hesitated for a few moments and then the whole 1,500 bolted, helter skelter, across the hills behind the forts.

The Germans quietly entered the fortifications, hauled down the Chinese flag and hoisted the German standard, which the warships saluted immediately. The Chinese general, who had his family with him, did not flee, but claimed German protection.

The forts are now held by the Ger mans, who, it is believed at Shanghai, intend to remain permanently.

In official Chinese circles Germany is considered to have committed an act of war, but it is regarded as improbable that China, on account of her weakness, will take action upon it as such.

American and British warships have been ordered to Kiao-Chau to watch developments. The greatest interest is felt as to the result of Germany's action, because the region is immensely rich in ninerals and the harbor the best along

It is now asserted that the murder of the two German missionaries, near eity on business returned this forenoon Yen-Chu-Fu (Yeng-Tu), was not the work of bandits, as originally understood, but was deliberately planned by Li Hung Hing, governor of the province, prior to his departure for See-Chouan, of which he has been appointed viceroy.

GRAPES AND THE APPENDIX.

H. W. Daw on, of Greencastle, is in The Little Seeds Are Not So Dangerous as Has Been Claimed.

Things have been said about the baneful and delicious juice of the grape ever since the olden time when Noah found out about it and came thereby to grief, but even before that men ate grapes, came here this forenoon to visit friends. and only within the last decade have they been talked to about that. It is only since surgeons began to make here last evening to work as a domestic. money hunting for grape seeds in the vermiform appendix that people have William H. Deal and family moved been afraid to eat grapes and to eat

It now appears that in all the thousands of cases famous, and possibly in some cases infamous, in which this new evening to New Albany to visit relatives fashioned surgical operation has been performed there is not one case in which a grape seed or any other little bullet shaped thing has been found in the vermiform appendix. The whole interior of the appendix is only big enough to admit a medium sized darning needle. Nobody knows what it is there for, but it must have been useful at some 'ime. Ill., came here last evening to visit It is a case of the survival of the unfit, like the wisdom teeth, which are of so little use to most people, and the tou-J. W. Schlechter, of Jonesville, was sils, which cause so much trouble now and then.

The tonsils and the appendix are both unused parts of the body and pe-culiarly liable to disease because they are not strengthened by u.e. If inflammation attacks them, they are unable to resist. Thus many diseases which have been ascribed to peritonitis or colic or a mysterious providence of some kind system, and if the trouble had been discovered in time the appendix could have been removed, and all would have been

The remedy, therefore, is not in avoid ing grape seeds, which do not cause the trouble, but in keeping as well and as strong as possible, and in case of sudden illness calling a reliable doctor, who will know what the matter is. Somebody once said that most people use a doctor to enable them to sin against the laws of nature with impunity. But that is a bad use for him .--Washington Times.

COURIERS BACK NUMBERS. No Longer Any Need to Go Through En-

rope With Them. Up to times within the memory of

living men almost no one of means traveled through Europe without a courier. Before railroads were built and before good guidebooks were print ed he was almost indispensable. His tribe survives, but in greatly diminished numbers. To the self reliant trav eler he is of no use whatever. Indeed be is frequently a positive incumbrance, and worse To my mind one of the great pleasures of travel is in learning to travel by myself. There are satisfaction, pleasure and education in planning routes, deciphering time tables, making bargains, learning by observation the lay of the land.

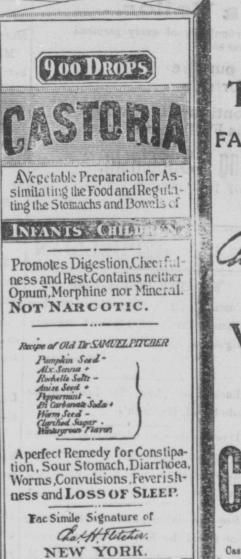

The time may have been when a courier could save a traveler more than makes, which, of course, comes out of the purchaser in increased price, and as it is often for his interest to advise hotel or the more costly excursion, he eats up much more than his wages, while saving positively nothing. Bean declares that in a two weeks' trip in southern Spain, which he made side by ende with a couple having a courier, he invariably reached the hotel first, got better rooms and saw all the sights to as good advantage, yet the courier was, of his kind, an expert. The fact is that travel has become so general, tourist companies, railroads and landlords have so well studied its needs, books are so get off the track or have a mishap i you tried .- Herbert Luce in "Going

disposition of Senor Moret, minister for the colonies, the meeting of the Spanish cabinet, which had been called for the LEWIS & LEWIS, discussion of Cuban autonomy last evening, was postponed. The principal basis of the scheme to be considered when the cabinet meets are the enjoyment of all the rights accorded by the Spanish constitution without any curtailment whatever; the identity of political and civil rights for Spaniards and Cubans, without distinction of race or color, and the creation of a Cuban chamber, all the members of which are to be elected by popular vote. A Cuban senate is to be created later on.

The chamber is to be empowered to vote the budget of expenditure, make laws controlling public services, establish customs and tariffs and decide the relative responsibility of the executive officers.

UNPOPULAR OFFICER.

Has Had Trouble With Both Conservative and Autonomist Leaders.

HAVANA, via Key West, Fla., Nov. 18.—The new secretary general of Cuba, Dr. Jose Congosto, formerly Spanish consul at Philadelphia, continues to make himself unpopular. He has had a dispute with a prominent conservative, Senor Francisco De Las Santos Guzman, a former president of the congress and he also has had a misunderstanding with Senor Cuetro, a prominent autonomist, with the result, it is in the coart without any hesitation deunderstood that letters have been writ- cided the case in favor of the accused. ten to Madrid calling attention to the alleged eccentricities of the socretary general, also dwelling upon his peculiar political sentiments.

It is believed here there will be great excitement in Spain so soon as the United States congress meets. Letters have been found upon captured insurgents advising them to keep up the struggle for three months longer, pointing out that the first act of the Sagasta government would be the removal of General Weyler and adding that war would be made on the Spanish minister at Washington, Senor Depuy de Lome. It is charged that Senor Depuy de Lome and Dr. Congosta are to blame for the spread in the United States of the sentiment in favor of autonomy, and it is even alleged that they have induced American newspapers to advocate this policy.

Competitor's Crew.

HAVANA, via Key West, Fla. Nov. 18.—Marchal Blanco has received cabled instructions from Madrid to release the prisoners captured on board the American schooner Competitor in April, 1896, by the Spanish gunboat Mesagera, and they will sail this evening for the United States. It is also reported that the instructions to the governor general direct the return of the captured arms and of the vessel to its owners.

J.M.CLAYTON MURDER

Memory of the Famous Crime Revived by a Letter.

Georgia Man Writes Governor Jones That He Can Locate the Assassin and Produce Proof of His Guilt-The Crime Caused a Sensation-The Ketcham Sensation and Other Crimes.

LITTLE ROCK, Nov. 18 .- The memory of the most famous crime ever committed in Arkansas-the assassination of the result of the election in this of Hon. John M. Clayton-has been revived by the receipt of a letter by Governor Jones, written from Pitts, Ga., by a person signing the name Luther National committee do you believe it Akins. The writer of the letter recalls has a national bearing?" "Not necesthe crime, inquires about rewards and states that he can locate the murderer and produce proof of guilt.

The murder of John M. Clayton will be remembered by politicians and public men all over the country, Clayton was a brother of Hon. Powell Clayton, the present United States minister to Mexico. He was the Republican candidate for congress in 1889, his opponent being Hon. Clifton R. Breckinridge, late ambassador to Russia. The canvas was a spirited one and the contest was bitter. Breckinridge was declared elected and

Clayton filed a contest. While this contest was in progress Mr. Clayton went to Plummerville to limitations upon teachers". There look after his interests. While in his room one night just before preparing to retire an assassin crept up in the dark and fired a load of buckshot through the window of his room inflicting wounds from which he died. The murder created a sensation all over the United States. Detectives were employed and worked diligently on the case and many persons were suspected of the crime but the murderer went unpunished. Several times since then the memory of the crime has been revived by the discovery of some new clue but the assassination had almost been forgotten when the letter from Akins once more brought the terrible affair into public notice. The legislature once offered a reward of \$5,000 for conviction of the murderer and the reward is probably yet in force.

The murderer who, at dead of night, creeps, stealthily out to bury the dead and abroad who yearly slays one-sixth of all th human race who go down to untimely death This dread monster is called consumption The approach of consumption is slow and insidious. First there is a slight disorder of the digestion. The appetite is poor and the nourishing properties of the food are not properly assimilated. The blood becomes thin and impure. The body begins to starve. Old tissues of the body are not properly replaced by new. The lung tissues are not properly nourished and are inert and half dead. In this condition they offer a good soil for the germs of consumption which soil for the germs of consumption which

invade and attack them.

This operation is promptly reversed by Dr. Pierce's Golden Medical Discovery. It invigorates the digestion and appetite and makes assimilation perfect. It builds up and purifies the blood. It makes new and healthy tissue to replace the old, inert matter which it causes to be carried off. It drives out all disease germs. Thousands of drives out all disease-germs. Thousands of cases given up as hopeless have been cured. Miss Laura Piersel of East Bethlehem, Washington Co., Pa., writes: "I must write you telling you of the great benefit derived from the use of your 'Golden Medical Discovery,' Last sumof your 'Golden Medical Discovery.' Last sun-mer my friends thought I was surely going into consumption, and having tried doctors with no satisfactory results and hearing your medicine so highly spoken of, I took one bottle. My cough left me together with all the distressing symp-toms, and in fact the cure seemed almost mirac-ulous to all who saw me."

FOOT-BALL is being tabooed by some of the prominent educational institutions of the country. Others will make it elective at least.

THE slot-machine has found favor in Judge Cox's court at Indianapolis. His decision practically tells the owners of such machines how they can avoid the law.

THE Nebraska banks are complaining that they have more money than they can loan, and the farmers of that State are paying off their debts with unexa upled rapidity.

Pugillar Fitz-immons has resigned is membership in the Marion Lodge of Elks, thus saving the lodge from a complete knock out by the exalted

THE man who lets William Jennings Bryan do his thinking now is the man who let Cleveland think for him a iew short years ago. There is more emparrassment ahead for him.

ARIZONA is aspiring to statehood. In the election of a territorial delegate last fall only 14,060 votes were cast and the population of the territory is estimated at 77,000, widely scattered over the territory. We have too many weak states already in the Union, and Arizma will probably be asked to wait awhile before being admitted.

Thankgiving Turkev.

The Philadelphia Record gives the following concerning the preparation o he Thanksg ving bird:

There is a chef in one of the large hotels who is famous for his roast turkey. Turkey under his hands comes out not only a beautiful brown, but of a d-licious flavor quite different from any o her turkey that ever was seen. The turkey meat is positively rich, and even the white meat that is generally dry has a moist, spicy taste.

This is his receipe for roast turkey which he kindly consented to give the household department:

Clean the turkey with as little handing as possible and rinse with water in which a little baking soda has been ussolved. Now break up about half a pint of bread crumbs, and into the erumbs chop two links of pork sausag e Stuff the turkey with this mixture and just before putting it into the oven bind salt pork on the breast of the turkey. Remove the pork just before the turkey is taken from the oven.

When the meat is caryed its flavor will be found very superior. This is ticularly to be recommended for the Thanksgiving turkey, which; with so many other dainties riva ing it, must be very appetizing to be enjoyed.

GERMANY IN POSSESSION.

Compell the Chinese to Evacuate Forts at Kiao-Chau.

London, Nov. 18.—A special dispatch from Shanghai says that commander of the German cruiser division. Admiral ago awarded an injunction to prevent Von Diederich, landed troops at Kiao-Chau on Monday morning, Nov. 15. The three forts were held by 1,500 Chinese and their guns commanded the fleet. Admiral Von Diederich placed his four cruisers immediately opposite, J. M. The Chinese hesitated for a few moments and then the whole 1,500 bolted, helter skelter, across the hills behind

The Germans quietly entered the fortifications, hauled down the Chinese flag and hoisted the German standard, which the warships saluted immediately. The Chinese general, who had his family with him, did not flee, but claimed

German protection. The forts are now held by the Germans, who, it is believed at Shanghai,

intend to remain permanently. In official Chinese circles Germany is considered to have committed an act of war, but it is regarded as improbable that China, on account of her weakness, will take action upon it as such.

American and British warships have been ordered to Kiao-Chau to watch developments. The greatest interest is felt as to the result of Germany's action, because the region is immensely rich in ast night to Dillsboro to visit his par- minerals and the harbor the best along

It is now asserted that the murder of the two German missionaries, near city on business returned this forenoon Yen-Chu-Fu (Yeng-Tu), was not the work of bandits, as originally understood, but was deliberately planned by Li Hung Hing, governor of the province, prior to his departure for See-Chouan, of which he has been appointed viceroy.

whout a single exception, there wond icabt no reater or more our newspape in the United s than the Cincipnati Enquirer; a mo e successful publisher than proprietor, Mr. John R. McLean. The old-time prices for the Daily nquirer have been maintained, and s circulation largely increased each ear; hard times and cheaper jourals failing to arrest its onward march nd high appreciation of the public

or its true worth and merit. To Weekly Enquirer at beginning campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own cpinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to. w ... a cheaper ournal cannot affora.

The very liberal support siven the Enquirer by the public at har, o, makes incumbent upon the management to serve it faithfully with zeal and enerprise in minor matters as well as tose of greater magnitude.

B. & O. S. W. Election.

The annual meeting of the stockholders of the B. & O. S. W. will be held in the general offices of Vice President W. W. Peabody today. The annual report will be a fair one for the company, considering all the adverse ircumstances of the past fiscal year. Since the tide of finances turned in general business the earning of the property have been decidedly encouragng. One thing is manifest, however and is not dependent up in the result of today's election. Whether President E. R. Bacon is continued in office or not the aggressive policy dominating the B. & O. will be followed out in all departments of the B. & O. S. W during the coming year, Minaging Receiver Murray, of the B. & O., wil' have a great deal to say as to the policy of the company. His aggressive method of getting business and annoyng competitors will be carried out to the letter, even if it becomes neccessary for him to dictate appointments and policy. The B. & O. people are heavly interested in the B. & O. S. W. and besides guaranteeing the bonds of the company, otherwise de ire to see the B & O. S. W. take rapid stride for the

GRAPES AND THE APPENDIX.

Has Been Claimed. Things have been said about the baneful and delicious juice of the grape ever since the olden time when Noah found out about it and came thereby to grief, but even before that men ate grapes, and only within the last decade have they been talked to about that. It is only since surgeons began to make money hunting for grape seeds in the vermiform appendix that people have William H. Deal and family moved been afraid to eat grapes and to eat

It now appears that in all the thousands of cases famous, and possibly in Miss Emma Everbach went last some cases infamous, in which this new fashioned surgical operation has been performed there is not one case in which a grape seed or any other little bullet shaped thing has been found in the vermiform appendix. The whole it. terior of the appendix is only big enough to admit a medium sized darning needle. Nobedy knows what it is there for, but it must have been useful at some 'ime. Ill., came here last evening to visit It is a case of the survival of the unfit, like the wisdom teeth, which are of so little use to most people, and the tonsils, which cause so much troable now and then.

The tonsils and the appendix are both unused parts of the body and peculiarly liable to disease because they are not strengthened by use. If inflammation attacks them, they are unable to resist. Thus many diseases which have been ascribed to peritonitis or colic or a mysterious providence of some kind

The remedy, therefore, is not in avoid ing grape seeds, which do not cause the trouble, but in keeping as well and as strong as possible, and in case of sudden illness calling a reliable doctor, who will know what the matter is. Somebody once said that most people use a doctor to enable them to sin against the laws of nature with impunity. But that is a bad use for him .--Washington Times.

COURIERS BACK NUMBERS.

No Longer Any Need to Go Through En-

rope With Them. Up to times within the memory of living men almost no one of means traveled through Europe without a courier. Before railroads were built and before good guidebooks were print ed he was almost indispensable. His tribe survives, but in greatly diminished numbers. To the self reliant trav eler he is of no use whatever. Indeed he is frequently a positive incumbrance, and worse To my mind one of the great pleasures of travel is in learning to travel by myself. There are satisfaction, pleasure and education in planning routes, deciphering time tables, making bargains, learning by observa-

tion the lay of the land. The time may have been when courier could save a traveler more than percentage on every purchase his party makes, which, of course, comes out of the purchaser in increased price, and as it is often for his interest to advise the more costly route, the more costly eats up much more than his wages, while saving positively nothing. Bean declares that in a two weeks' trip in southern Spain, which he made side by efde with a couple having a courier, he invariably reached the hotel first, got better rooms and saw all the sights to as good advantage, yet the courier was, of his kind, an expert. The fact is that travel has become so general, tourist companies, railroads and landlords have so well studied its needs, books are so get off the track or have a mishap if you tried .- Herbert Luce in "Going

ONE OF TWO WAYS

The bladder was cr. ated for one pur of the dry weather is reviving since the and as such it is not liable to any form of disease except by one of two ways The first way is from imperfect action fthe kidneys. The second way is from care less local treatment of other diseases CHIEF CAUSE.

Unhealthy urine from unhealthy kid ney is the chief cause of bladder troub les. So the womb, like the bladder was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the tladder, therefore ary pain disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble o some sort. The error is easily made and and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney, and bladder remedy is soon realized. It Will Make all Laws Bearing Directly Congosta, Secretary General of Cuba, An Unpopular Man. MADRID, Nov. 18 .- Owing to the in-

disposition of Senor Moret, minister for the colonies, the meeting of the Spanish cabinet, which had been called for the discussion of Cuban autonomy last evening, was postponed. The principal basis of the scheme to be considered when the cabinet meets are the enjoyment of all the rights accorded by the Spanish constitution without any curtailment whatever; the identity of political and civil rights for Spaniards ing. and Cubans, without distinction of race or color, and the creation of a Cuban chamber, all the members of which are to be elected by popular vote. A Cuban senate is to be created later on.

The chamber is to be empowered to vote the budget of expenditure, make laws controlling public services, establish customs and tariffs and decide the relative responsibility of the executive

18.—The new secretary general of Cuba, Dr. Jose Congosto, formerly Spanish consul at Philadelphia, continues to make himself unpopular. He has had a dispute with a prominent conservative, Senor Francisco De Las Santos Guzman, a former president of the congress and he also has had a misunderstanding with Senor Cuetro, a prominent autonomist, with the result, it is in the court without any hesitation deunderstood that letters have been written to Madrid calling attention to the Mr. LaFollette will seek legal redress. alleged eccentricities of the secretary general, also dwelling upon his peculiar political sentiments.

It is believed here there will be great excitement in Spain so soon as the United States congress meets. Letters have been found upon captured insurgents advising them to keep up the struggle for three months longer, pointing out that the first act of the Sagasta government would be the removal of General Wevler and adding that war would be made on the Spanish minister at Washington, Senor Depuy de Lome. It is charged that Senor Depuy de Lome and Dr. Congosta are to blame for the spread in the United States of the sentiment in favor of autonomy, and it is even alleged that they have induced American newspapers to advocate this

"I see by the papers that you will On the Island, but International Affairs have about 15 majority on joint ballot Remain With the Motherland - Dr. instead of five." To this the senator replied: "I don't care to say a word about politics. My visit here is not political and I wish to refrain from discussing the situation in Ohio."

He was asked: "What do you think city?" "I do not wish to say anything about it." "But, as chairman of the Republican

National committee do you believe it has a national bearing?" "Not necessarily so.' The senator said that business is good

Memory of the Famous Crime Revived by a Letter.

BROTHER OF POWELL CLAYTON

Georgia Man Writes Governor Jones That He Can Locate the Assassin and Produce Proof of His Guilt-The Crime Caused a Sensation-The Ketcham Sensation and Other Crimes.

LITTLE ROCK, Nov. 18 .- The momory of the most famous crime ever committed in Arkansas-the assassination of the result of the election in this of Hon. John M. Clayton-has been revived by the receipt of a letter by Governor Jones, written from Pitts, Ga., by a person signing the name Luther Akins. The writer of the letter recalls the crime, inquires about rewards and states that he can locate the murderer and produce proof of guilt.

The murder of John M. Clayton will be remembered by politicians and public men all over the country, Clayton was a brother of Hon. Powell Clayton, the present United States minister to Mexico. He was the Republican candidate for congress in 1889, his opponent being Hon. Clifton R. Breckinridge, late ambassador to Russia. The canvas was a spirited one and the contest was bitter. Breckinridge was declared elected and Clayton filed a contest.

While this contest was in progress Mr. Clayton went to Plummerville to limitations upon teachers". There look after his interests. While in his room one night just before preparing to retire an assassin crept up in the dark and fired a load of buckshot through the window of his room inflicting wounds from which he died. The murder created a sensation all over the United States. Detectives were employed and worked diligently on the case and many persons were suspected of the crime but the murderer went unpunished. Several times since then the memory of the crime has been revived by the discovery of some new clue but the assassination had almost been forgotten when the letter from Akins once more brought the terrible affair into public notice. The legislature once offered a reward of \$5,000 for conviction of the murderer and the reward is probably yet in force.

WHO WAS THE BRIDEGROOM? Police Think It Was Keller, and Not

Ketcham. CHICAGO, Nov. 18 .- Additional mystery is thrown about the case of John B. Ketcham with every development brought forth by the police in their efforts to ascertain the facts surrounding his death at the home of Mrs. Minnie Wallace Walkup, or Ketcham. The police are inclined to believe the rumors which started in Milwaukee that Keller and not Ketcham stood before the minister as brid groom with his face concealed under the folds of a scarf. He is now held by the police who are able to produce him at any

John Campbell In Hock For Forging Bills of Lading.

MOUNT CARMEL, Ills., Nov. 18 .- John Campbell is in custody in this city on a charge of attempting to defraud. His method was unique. In some manner Campbell obtained possession of blank bills of lading, which he forged, representing that he had shipped two cars of wheat. These, together with forged letters of recommendation, he forwarded to Ballard & Ballard of Louisville, with a request that the money be sent at once. The firm immediately forwarded \$650 to him, which he called for under Ohio-Fair, except light showers or an assumed name, but, failing to identify himself, did not secure the cash. He was recognized and his arrest followed. The murderer who, at dead of night, creeps, stealthily out to bury the dead and angled body of his victim inspires men with horror and dread. There is a murde abroad who yearly slays one-sixth of all the human race who go down to untimely deaths. This dread monster is called consumption The approach of consumption is slow and us. First there is a slight disorder of the digestion. The appetite is poor and the nourishing properties of the food are not properly assimilated. The blood becomes thin and impure. The body begins to starve. Old tissues of the body are not properly replaced by new. The lung tissues are not properly nourished and are inert and half In this condition they offer a goo soil for the germs of consumption which

FOOT-BALL is being tabooed by some of the prominent educational institutions of the country. Others will make it elective at least.

THE slot-machine has found favor in Judge Cox's court at Indianapolis. His decision practically tells the owners of such machines how they can avoid

THE Nebraska banks are complaining that they have more money than they can loan, and the farmers of that State are paying off their debts with unexa upled rapidity.

Pugillar Firzammons has resigned nis membership in the Marion Lodge of Elks, thus saving the lodge from a complete knock out by the exalted rules of the order.

THE man who lets William Jennings Bryan do his thinking now is the man who let Cleveland think for him a iew short years agc. There is more emparrasament ahead for him.

ARIZONA is aspiring to statehood. In the election of a territorial delegate last fall only 14,060 votes were cast and the population of the territory is estimated at 77,000, widely scattered over the territory. We have too many weak states already in the Union, and Arizona will probably be asked to wait awhile before being admitted.

Thankgiving Turkev.

The Philadelphia Record gives the following concerning the preparation o he Thanksg ving bird:

There is a chef in one of the large hotels who is famous for his roast turkey. Turkey under his hands comes out not only a beautiful brown, but of a delicious flavor quite different from any o her turkey that ever was seen. The turkey meat is positively rich, and even the white meat that is generally dry has a moist, spicy taste.

This is his receipe for roast turkey, which he kindly consented to give the household department:

Clean the turkey with as little handing as possible and rinse with water in which a little baking soda has been quesolved. Now break up about half a pint of bread crumbs, and into the crumbs chop two links of pork sausage complaints to the Seymour pension Stuff the turkey with this mixture and just before putting it into the oven bind silt pork on the breast of the turkey. Remove the pork just before the turkey Ripley county on business. is taken from the oven.

When the meat is caryed its flavor will be found very superior. This is ticularly to be recommended for the Thanksgiving turkey, which; with so many other dainties rivaing it, must be very appetizing to be enjoyed.

GERMANY IN POSSESSION.

Compell the Chinese to Evacuate Forts at Kiao-Chau. LONDON, Nov. 18.—A special dispatch

from Shanghai says that commander of the German cruiser division, Admiral Von Diederich, landed troops at Kiao-Chau on Monday morning, Nov. 15. The three forts were held by 1,500 Chinese and their guns commanded the fleet. Admiral Von Diederich placed his four cruisers immediately opposite, J. M. Dixon is in the city from Xenia ready to fire, and sent an ultimatum ordering the evacuation of the forts within three hours. Six hundred German troops and six guns were then landed and began to march forward. The Chinese hesitated for a few moments and then the whole 1,500 bolted, helter skelter, across the hills behind the forts.

The Germans quietly entered the fortifications, hauled down the Chinese flag and hoisted the German standard, which the warships saluted immediately. The Chinese general, who had his family with him, did not flee, but claimed

German protection. The forts are now held by the Gernans, who, it is believed at Shanghai, ntend to remain permanently.

In official Chinese circles Germany is considered to have committed an act of war, but it is regarded as improbable that China, on account of her weakness, will take action upon it as such.

American and British warships have been ordered to Kiao-Chau to watch developments. The greatest interest is felt as to the result of Germany's action, because the region is immensely rich in minerals and the harbor the best along the coast.

It is now asserted that the murder of the two German missionaries, near Yen-Chu-Fu (Yeng-Tu), was not the work of bandits, as originally understood, but was deliberately planned by Li Hung Hing, governor of the province, prior to his departure for See-Chouan, of which he has been appointed viceroy. Wedding at Which the Mother of the Bride Performed the Ceremony.

MILWAUKEE, Nov. 18. - A unique wedding, in that all parties to the contract from the bride and groom down to bridesmaids and best men, were lawyers, was solemnized in this city. Miss Caroline Hamilton Pier and John Henry Roemer, prominent members of the Milwaukee bar, were joined in wedlock, the ceremony being performed by Mrs. Kate Pier, the bride's mother, in her capacity as court commissioner. The bride is a member of a distinguished family of lawyers, which at one time numbered five members of the legal profession-the father, the late Colonel C. K. B. & O. S. W. Election.

The annual meeting of the stockholders of the B. & O. S. W. will be held in the general offices of Vice President W. W. Peabody trday. The nnual report will be a fair one for the company, considering all the adverse ircumstances of the past fiscal year. Since the tide of finances turned in general business the earning of the property have been decidedly encouragng. One thing is manifest, however and is not dependent upon the result of today's election. Whether President E. R. Bacon is continued in office or not, the aggressive policy dominating the B. & O. will be followed out in all departments of the B. & O. S. W. during the coming year, Munaging Receiver Murray, of the B. & O., wil! have a great deal to say as to the polic/ of the company. His aggressive method of gatting business and annoying competitors will be carried out to the letter, even if it becomes neccessary for him to dictate appointments and policy. The B. & O. people are heavly interested in the B. & O, S. W. and besides guaranteeing the bonds of the company, otherwise de ire to see the B & O. S. W. take rapid stride for the better.

GRAPES AND THE APPENDIX.

The Little Seeds Are Not So Dangerous as Has Been Claimed.

Things have been said about the baneful and delicious juice of the grape ever since the olden time when Noah found out about it and came thereby to grief, but even before that men ate grapes, and only within the last decade have they been talked to about that. It is only since surgeons began to make money hunting for grape seeds in the vermiform appendix that people have William H. Deal and family moved been afraid to eat grapes and to eat them straight.

It now appears that in all the thousands of cases famous, and possibly in Miss Emma Everbach went last some cases infamous, in which this new fashioned surgical operation has been performed there is not one case in which a grape seed or any other little bullet shaped thing has been found in the vermiform appendix. The whole interior of the appendix is only big enough to admit a medium sized darning needle. Nobedy knows what it is there for, but it must have been useful at some time. Ill., came here last evening to visit It is a case of the survival of the unfit, like the wisdom teeth, which are of so little use to most people, and the ton-J. W. Schlechter, of Jonesville, was sils, which cause so much trouble now

The tonsils and the appendix are both unused parts of the body and pe-Misses Minnie Low and Sadie Loch- culiarly liable to disease because they are not strengthened by u.e. If inflammation attacks them, they are unable to resist. Thus many diseases which have been ascribed to peritonitis or colic or a mysterious providence of some kind covered in time the appendix could have been removed, and all would have been

The remedy, therefore, is not in avoid trouble, but in keeping as well and as strong as possible, and in case of sudden illness calling a reliable doctor, who will know what the matter is. Somebody once said that most people use a doctor to enable them to sin against the laws of nature with impunity. But that is a bad use for him .--Washington Times.

COURIERS BACK NUMBERS.

No Longer Any Need to Go Through Enrope With Them.

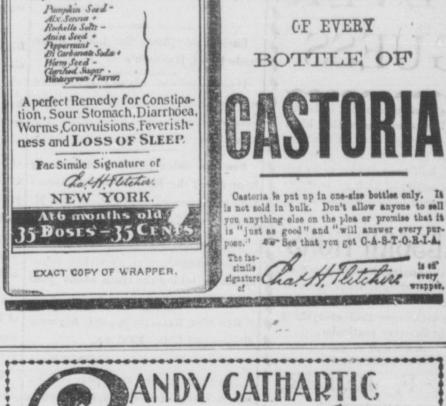

Up to times within the memory of living men almost no one of means traveled through Europe without a courier. Before railroads were built and before good guidebooks were print ed he was almost indispensable. His Wendell Poor has returned from his tribe survives, but in greatly diminished numbers. To the self reliant traveler he is of no use whatever. Indeed he is frequently a positive incumbrance, and worse To my mind one of the great pleasures of travel is in learning to travel by myself. There are satisfaction, pleasure and cducason in planning routes, deciphering time tables, making bargains, learning by observa-
